

ADDENDUM NO. 1

CHICAGO SMART LIGHTING PROJECT REQUEST FOR INFORMATION Dated: September 17, 2015

DATE: October 15, 2015

NOTICE OF CHANGES IN THE REQUEST FOR INFORMATION DOCUMENT

Change 1. Section 1.3-RFI Submission Requirements - (PAGE 5)
RFI Response submissions are required to: Delete "as per the template attached herein as Appendix E" at end of bullet point c).
Corrected bullet point c) should read: c) Provide the economic information supporting your proposed approach in a Microsoft Excel format.

Explanation: Due to the variety of business case financial models that might be generated to support a comprehensive street lighting modernization program, it was decided a spreadsheet template would not be useful. Respondents are encouraged to use their own Microsoft Excel format to clearly document the financial assumptions supporting their recommended approach. Digital Microsoft Excel workbooks should be submitted in editable (non-protected) xls. or xlsx. formats so reviewers can see underlying formulas and check calculations.

Clarification 1. Section 1.3-RFI Submission Requirements - (PAGE 5)
By eliminating the reference to Appendix E, as stated above, the revised RFI document also eliminates any implied reference to an Appendix D; the amended RFI should only include:

APPENDIX A - RFI SUBMISSION GUIDELINES;
APPENDIX B - CITY OF CHICAGO LIGHTING INVENTORY;
APPENDIX C - CHICAGO PARK DISTRICT LIGHTING INVENTORY.

End of Addendum No. 1
