

Chicago Smart Lighting RFP Clarifications #5

January 12, 2017

#	Section	Question	Response
113	ITP Section 5.2 Technology Oral Presentation & Demonstration	Will the City consider a time extension for the series of technology interviews planned?	No, the time allotted for the Technology demonstrations will be confined to Jan 17th & 18th, 2017.
114	ITP Section 5	Does the City plan to have additional interviews regarding the other sections of the proposal, e.g., project approach/condition assessment/LED conversion, etc.?	No, not at this time.
115	ITP Section 5.2 Technology Oral Presentation & Demonstration	<p>Please provide further guidance on the LMS demonstration and oral presentations scheduled for Jan 17 & 18, 2017:</p> <ol style="list-style-type: none"> 1. Confirm agenda is primarily focused on the contents of each team's RFP response, Section IV-Technology Proposal only? 2. Please provide guidance on the agenda, can we do 1 or 2 overview slides at the beginning? 3. Do you prefer that the virtual demonstration is based on an existing installation elsewhere in the US, rather than just a theoretical one? 	<ol style="list-style-type: none"> 1. Confirmed, the sole purpose is to better understand and inform the evaluation of the proposed LMS technology solution; per Section 5.2 of the ITP, the session presents an opportunity for in-person demonstration of the proposed technology and for clarification of the information provided in Proposers' Proposals. It will have no bearing on other aspects of the Proposal evaluation. 2. The agenda is up to the presenters, the only guidance is that at least 30 mins of the allotted 90 mins be reserved for Q&A, intros and company overviews be limited to 5 mins, and the presentation content be tailored to offer participants a clearer understanding of the functionality, features, and LMS implementation plan included in the Proposal. As much as possible content should be specific to the Smart Lighting solution and not a general sales presentation. 3. A demonstration of an existing system is preferable, but a virtual demonstration of a simulated Chicago installation is also acceptable.
116	ITP Section 5.2 Technology Oral Presentation & Demonstration	<p>In regards to the LMS demonstration and oral presentations scheduled for Jan 17 & 18, 2017:</p> <ol style="list-style-type: none"> 1. Is there any additional information that can be provided about the City's anticipated 20-30 person audience? 2. Is there a limit to number of people we can bring? 3. Will Wi-Fi access be available? 	<ol style="list-style-type: none"> 1. The audience will be comprised of stakeholders from various Chicago departments (CDOT, DoIT, OEMC, 2FM, OMB) along with subject matter expert advisors, and CIT personnel. 2. No specific limit to the number of presenters; all included should be there for their ability to clarify and address questions pertaining to the comprehensive proposed technology solution, including implementation, support, integration, etc. 3. Yes, Wi-Fi will be available.
